

All Early Childhood Programs offered by Eastern Carver County Community Education will follow the same model as Elementary.

On August 11, parents were informed that children in grades K-5 would return to school in-person in a modified hybrid learning model. Decisions to pivot to another learning model will be based on current health data and guidance from MDH, MDE and local health agencies.

District Return to Learn Models

Return to learn Family Learning Center- Early Childhood Programs

**Learning Models for Early Childhood Programs
are summarized below.
We will begin the year with the
